

FIFA and FIFPro sign collaboration agreement

Video News Release

6 November 2017

Statement by FIFPro President Philippe Piat

FIFPro is delighted with this agreement. The moment has come to change something in the transfer system because it had started to have difficulties. A financial bubble had begun to appear and today it is necessary to reform the system. Our renewed confidence in FIFA motivated us to sign an agreement, and hand in hand, to try to work for the good of professional football, taking into account the environment we find ourselves in today, and our desire to improve things. For us today is an important day, we could even say a historic day, because together with FIFA, we will restructure football where necessary.
